I am very creative, loyal, and honest. I prefer to use the finest ingredients and therefore will resource the best products for the best prices. I have developed a great understanding of where to shop, in Las Vegas, for the best ingredients. I bring to my employers only high-quality cuisine and high-quality professional service. While customizing family nutrition & menus, I also bring a full understanding of Estate Management and Event Catering. Most of the daily prepared meals can be designed around a Mediterranean style diet, yet, I also cook Kosher, classic American style comfort foods, Vegetarian, and many other multi-national cuisines.

I would be honored, to discuss with you all your needs for a quality Chef and answer any questions you may have; please consider me always approachable and currently available. I look forward to speaking with you.

Thank you in advance for your reply.

Kind Regards,

Chef Brian Thompson
